Your child enjoys a welcoming and nurturing home away from home while living in the country.

College life

We strive to provide a safe, secure, caring and supportive environment where your child can have privacy and room to grow, and importantly, where they can make lifelong friends, have fun and feel at home.

All students have their own room, with accommodation and bathroom facilities separated according to gender. Students come together to enjoy meals in the dining room and there are a number of recreational areas offering a balance between privacy and opportunities to socialise.

Outside the college, boarders can sign up for sporting and other recreational clubs in the local community. Some boarders also choose to take on after school employment with local businesses.

A healthy balance between study and recreation is promoted so your child enjoys life as a boarder.

Supervision

Your child will be supervised by qualified professional staff members. They are dedicated to creating a wonderful boarding experience for your child, helping to develop a healthy balance between study and recreation.

Working closely with you and your child's school, supervisors encourage a team approach to the care, wellbeing and school success of your child.

Supervisors facilitate regular study sessions and tutoring; support boarders' educational and sporting aspirations; and organise all sorts of recreational, leisure and social activities.

Weekends are relaxed, with flexible wake up and bed times and plenty of opportunities to leave the college for sport, shopping, excursions and other fun activities.

Access to high quality education is provided so your child can reach their full potential.

Recreation and facilities

There is never a shortage of things to do at Esperance Residential College. The recreation program ensures the students experience all that the Esperance region has to offer.

Your child will have access to Esperance Senior High School's gymnasium, football oval, and courts for basketball and netball, as well as an indoor recreational facility and table tennis. The college also organises frequent excursions, including regular supervised visits to the beach for swimming, surfing and beachcombing.

Your child can enjoy other recreational activities such as art and music, within the college and in the local community.

Fees

Residential colleges offer exceptional boarding with affordable fees.

Visit education.wa.edu.au/residential-colleges for fees and allowances information.
