Western Australian Government Schools support international students to achieve academic success, with a range of study pathways and an internationally recognised curriculum. Our schools provide a caring, inclusive environment to help each student reach their potential. Join thousands of students from across the globe who have chosen Western Australia as their study destination.

Perth lifestyle

Perth, the capital of Western Australia, is a safe and vibrant multicultural city. The people are friendly and there are endless things to do. The public transport system is simple to navigate and safe for students to use.

The city offers a relaxed lifestyle with a thriving arts scene, outdoor activities, and easy access to the stunning natural beauty of Western Australia, making it an ideal location for international students.

World-class education and schooling system

Our schools offer a globally recognised curriculum, with a strong emphasis on critical thinking, creativity and developing lifelong skills. Western Australian students consistently perform well above international averages as assessed by the Programme for International Student Assessment (PISA). The curriculum offers 7 years of primary school (Pre-primary to Year 6) and 6 years of secondary school (Years 7 to 12), preparing students for seamless transitions into university, vocational training, or global careers.

International students can access English language support through tailored English language programs delivered by specialist staff, including students who are in the early stages of learning the English language.

Over 90% of our students graduate with the Western Australian Certificate of Education (WACE). Australian education is recognised and respected by top universities worldwide. This recognition ensures that students who complete schooling are well-prepared for higher education, whether they choose to study in Australia or elsewhere.

Affordability

Studying in Western Australia is affordable, with competitive tuition fees and the Australian dollar providing excellent value compared to currencies like the US dollar or British pound. This makes Perth a top choice for students from Cambodia seeking quality education and affordability.

Choice of subjects and specialist programs

Students in our schools can choose from a broad range of study areas, including sciences, humanities, English, and mathematics. Beyond these foundation subjects, students have access to specialised programs in STEM, academic extension, sports, music, and the arts, allowing them to pursue their interests, build diverse skills, and excel in areas they are passionate about.

Homestay and accommodation

Students have the option to stay with carefully selected homestay families, providing a safe and welcoming home environment that enriches cultural understanding and language skills. Our homestay program provides students with a safe, nurturing home environment where they can truly experience Australian culture. Living with a host family helps students improve their English, build lifelong connections and immerse themselves in a supportive community. Students may also choose to live with a guardian. This person must be a parent or close relative over the age of 21, approved through the Department of Home Affairs.
