Special Education funding is provided to non-government schools by the WA State Government in recognition of the additional costs required to educate a student with a disability. This funding is only to be used for the education of the students for whom it is provided, either individually or collectively.

Special Education funding for eligible students is paid in addition to Per Capita funding, at a loading of either 110%, 210% or 360% of the Per Capita rate based on the students' assessed level of disability (e.g. Mild, Moderate or Severe). This funding is paid twice each year (i.e. each semester's payment equates to half the amount listed in the table above).

High Support Needs (HSN) funding is provided for students assessed as having very severe disabilities, in lieu of per capita and special education funding. The 2022 HSN annual rate is \$13,310 for Kindergarten students and \$33,275 for Compulsory Primary, Middle School and Upper Secondary students.
