## ASET results check request form

This form is for parent or carers who believe a marking or reporting error may have occurred and wish to request a check of their child's reported Academic Selective Entrance Test (ASET) test results.

A results check confirms that:

- your child's results have been correctly matched to their name
- the computer-marked multiple-choice tests (Reading Comprehension, Quantitative Reasoning and/or Abstract Reasoning) have been correctly scanned and scored
- the marking criteria for the **Communicating Ideas in Writing** test have been correctly applied to your child's work

Please complete the details below.

Student details				
First name				
Last name				
Student number (if known)		Current school year (circle)	6	8 9 10

Results check requested for (please tick ✓ the applicable test/s)			
Reading Comprehension		Communicating Ideas in Writing	
Quantitative Reasoning		Abstract Reasoning	

**By submitting this form, I understand and accept that:**

- I am requesting a check because I believe there may be an error in the marking and/or reporting of my child's ASET.
- The first round of offers for all programs will be based on my child's current ASET score.
- The outcome of the results check will be emailed to me in mid-July, before the second round of offers.
- If an error is identified, my child's ASET scores may be updated.
- Any updated scores will replace the original scores and may affect current placements and/or future offers.
- The outcome of the results check is final and cannot be withdrawn, cancelled, or appealed if the result is not as hoped.
- Information about illness, incidents, or misadventure (including test misalignment) cannot be considered as part of the results check.
- I must email the completed form to [gtsu@education.wa.edu.au](mailto:gtsu@education.wa.edu.au) with the subject line **"Results check"** by **4 pm Wednesday 10 June 2026**.
