

# **GIFTED AND TALENTED MEDIA ARTS PROGRAM**

## **Workshop Information – Entry in 2024**

Dear Parents and Gifted and Talented Media Arts Applicants,

Thank you for your interest and application to the Gifted and Talented Media Arts Program.

The Media Arts program at John Curtin College of the Arts provides a foundation for children interested in pursuing a career in the media industry, journalism, advertising and related fields.

Applicants have the opportunity to develop skills in radio, film, multi-media and television media. They create, produce and analyse media products and develop their talent in video production, radio broadcasting and journalism.

For the workshop, students may be assessed on any subject matter within Media Arts. No prior knowledge of the subject is necessary and a Media Arts tutor will be present to explain all of the assessment tasks in full. Please note that there is a written and/or visual imagery component in the workshop. If your child has a diagnosed learning difference that may affect the written and/or visual imagery task, please contact the Gifted and Talented Selection Unit prior to the testing.

**Please do not bring any form of portfolio to the workshop. Please ensure the Student Details Sheet and a Student Identification and Health Form are completed. On arrival at the venue, these forms should be handed to administration staff at the workshop registration table. Any serious health conditions should be brought to the attention of the administration staff at the time of registration and to the Gifted and Talented Selection Unit prior to your child's workshop.**

If you have any further queries about the Selective Testing, please contact the **Mark Terry** on (08) 9264 5513 or via email at [mark.terry2@education.wa.edu.au](mailto:mark.terry2@education.wa.edu.au).
